

Gail Rhodes

ALL RHODES PILOT SERVICE
250-963-9865

I am a Metis Woman who moved from Alberta when I was still a youngster and I grew up in the Robson Valley.

We are located in Prince George, BC Canada and my clientele are businesses (in Prince George or out of the city or province) that require a pilot car to escort an oversized load from one destination to another. Most of these businesses are trucking companies that move various types of loads. All Rhodes Pilot Service is an escort service for oversized loads. We have been in business for 6 years, since February 2005.

In 2004 I worked on the business plan to start my business and I received some funding and start up assistance from the Aboriginal Business Development Center. My business was up and running by February 2005. The company grew slowly and in 2006 I purchased another truck and kept my old one as a spare. In the early years I had a few major breakdowns which my husband helped me out with and he continues to help when needed. In 2009 I purchased another truck and retired my first truck. This year I was able to trade the truck I bought in 2006 for a new one. Each year has been better the previous year as business keeps steadily growing,
